## Community Response to COVID-19

### 1) EXERCISE RESTRAINT

Please purchase only what you need. If your family needs 1 gallon of milk every 2 weeks, please only purchase 1 not 4. Over-purchasing leaves fewer items for those seeking to meet their immediate needs.

### 2) REFRAIN FROM IMPULSE OR PANIC PURCHASES

Your impulse purchase might be what someone else actually needs tonight.

### 3) BE SOCIALLY RESPONSIBLE

Social media posts of long lines, empty shelves and wait times at stores induce more community anxiety and panic.

### 4) IDENTIFY WAYS TO HELP YOUR NEIGHBORS, ESPECIALLY THOSE WHO ARE MORE VULNERABLE TO INFECTION

### 5) GO ABOUT YOUR NORMAL LIFE

Most importantly, do the things you would normally do while focusing on the CDC's steps to prevent illness. Using good, prudent common sense and following the CDC's advice is "the best medicine" for you, your family, and the community.
