Curbside Christmas Tree Collection

We will be collecting Christmas trees during the month of January. For collection, fill out a Curbside Tree Pick Up Request Form on our website (www.wasatchfrontwaste.org), or call the WFWRD office at (385) 468-6325. Place your undecorated trees on your curb and they will be collected the day after your regular collection day during the month of January. If we don't get your tree one week, we will be back the following week. Please call our office, or chat with us on our website for additional information.

- Please remove all snow off the tree
- We cannot accept trees with decorations, lights, tree stands or flocking.
- Do not place the tree in your garbage, recycling, or green waste can.
- If the tree is over eight feet tall, please cut it into smaller sections.
- We cannot accept artificial trees

Waste in the Winter

As we all dig out of the snow, it would help our drivers if residents could move waste and recycling cans from behind the snowbanks on collection day. Please also remember to clear the snow off the top of your lids.

As the winter months continue, we also see the possibility of bad weather affecting our ability to provide timely service to your neighborhood. Our Facebook, Instagram and Twitter pages are the best way for residents and customers to find out if there could be a delay in service due to weather or traffic complications. Please follow us on Facebook and Twitter to stay apprised of these issues, and also to receive waste and recycling tips and updates.

WFWRD Recycling

Visit our website to check out all the amazing recycling guides to help you learn what goes in the can! From paper to plastic to cardboard, we are working hard to find new opportunities to accept more materials and make sure they are being recycled in the most environmentally friendly way possible. Make sure to take the time to familiarize yourself with items that are currently recyclable by checking out the guides on our website (www.wasatchfrontwaste.org), or by following us on Instagram, Facebook and Twitter. Scan the QR code for quick access to these links. By reducing contamination, we can continue to keep costs low for all of our residents. Remember, when in doubt, throw it out!
